## OTHER TOWNS ARE WATCHING CAMPAIGN

### Greensburg and Uniontown Send Their Representatives Here.

### THE CANVASS CONTINUES BRISK

**Second Day Found Competing Teams Determined to Beat Yesterday's Mark of 60—List of Those Who Enrolled During Yesterday's Canvass.**

Connellsville's awakening is attracting attention throughout this section and the eyes of every city in the State of the size of Connellsville are watching the campaign for the rejuvenation of the Chamber of Commerce which is being made by the Connellsville business men. Two cities, Uniontown and Greensburg, sent official representatives of their commercial organizations to Connellsville, today, to learn the progress of the campaign see how it is being taken hold of by the business men here, and get a few pointers on city development work. Ernest H. Rowe, Secretary of the Uniontown Chamber of Commerce and W. R. Williams, Secretary of the Greensburg Board of Trade, both expressed admiration fo the spirit which is causing the Connellsville business men to work for their city. Their views were given after seeing the teams working today and attending the noon day meeting at the Y. M. C. A.

The teams started out on the second day of the whirlwind campaign this morning greatly encouraged by the results of their first day's work, yesterday, when they secured 60 new members. They demonstrated that they are first class civic salesmen, and their first day's success has heightened their spirits.

Quite a number of business men who were unable to work on their teams yesterday appeared at the headquarters at 9.30 this morning and joined their squads. The number of workers was also increased by the addition of several men who had not previously volunteered to give up two hours of their time a day for three days, but decided later they wanted to join the workers.

A story of why one of the captains worked with his team and then disappeared just before noon was brought to light as the team gathered this morning.

"I was subpoenaed to testify in a law suit at 10 o'clock yesterday morning, but I tok a chance on staying with my team until 11.30 o'clock, and then I just had to leave. I got there just in time, but I was glad to have taken the risk of judicial censure," he said.

The regular captainey of Team No. 2 was divided between Burgess J. L. Evans and E. R. Floto of the Yough National Bank, this morning. Burgess Evans was elected captain of the team at first, but found that he would be unable to be on hand every day. Mr. Floto and Burgess Evans will divide the leadership honors.

The enthusiasm which was characteristic of the meeting yesterday was again prominent at the meeting at the Y. M. C. A. at noon today when the teams reported their results of the morning. President F. E. Markell, of the Chamber, said in a short speech, that he had no doubt the campaign would be a success, because the men of Connellsville were behind it.

That Uniontown will follow the lead of Connellsville in rejuvenating its Chamber of Commerce was stated today by Ernest H. Rowe, Secretary of the organization there. Mr. Rowe addressed the members of the campaign teams this afternoon.

Secretary W. R. Williams of Greensburg also addressed the meeting.

Mr. Rowe announced that no matter how well Connellsville does during the present campaign, Uniontown will beat it.

## JULIAN KENNEDY GIVES STANLEY PROBE DATA

**Outlines Effect of the Tariff Upon the Steel Trade of This Country.**

WASHINGTON, Mar. 28.—The protective tariff was credited with having regulated and rendered staple the steel market of the United States by Julian Kennedy of Pittsburg before the special committee of the House of Representatives investigating the United States Steel Corporation. Mr. Kennedy probably has constructed more steel plants than any other person and is regarded as an authority upon all matters in connection with the production of steel.

Too high a tariff is regarded by Mr. Kennedy as a detriment to the steel business. He said the great fluctuations in prices which have occurred in the steel business, largely in the years gone by, were caused by the tariff being too high. The high protection resulted, he said, in agreements to raise prices to a point which made business so profitable that others would start into the business and prices would fall. A more moderate tariff, he said, has resulted in a tendency not to overbuild works, and a still lower tariff would further regulate prices by admitting foreign steel when prices get too high and would therefore steady the market.

Mr. Kennedy told of when the tariff on tubes was $40 a ton, which he said was a Chinese wall so far as importations are concerned. Many new tube mills were constructed and business became demoralized. Then followed the organization of the National Tube Company by J. P. Morgan and others. Mr. Kennedy was employed, he said, to inspect and give his opinion on the valuation of the tube companies which were united in the National Tube Company.

## LITTLE GIRL SIMPLY INSISTS ON BEING LOST

**Five Year Old Refuses to Stay Put and Becomes Lost Twice in Two Days.**

Holding a big red apple tightly in one hand, a little girl this morning wandered up Pittsburg street and on reaching Brimstone Corner, stopped and surveyed the world contentedly. There she was found by Chief of Police George Hetzel. A crowd gathered and questions in several different languages were directed to the child, all proving unfruitful.

It is the second time that the child has been take in tow by the police. Yesterday the same child was found in front of Graham's drug store. At that time a boy volunteered to take her home. The police chief took the girl to the police station. He is about five years old.

A late report from the police station stated that the girl's parents had been found. It belongs to a railroad man by the name of West. Their home is on Johnston avenue. A neighbor of the man discovered the child at the police station and offered to take it home.

## BODY OF DEAD MAN IS FOUND IN FREIGHT CAR

**Had Bullet Hole Through Head and Heart—"Martin Fox" on Laundry.**

United Press Telegram.

PITTSBURG, March 28.—Shot to death with one bullet through his heart and another in his brain, the body of a well dressed unidentified man was found in a P. & L. E. freight car at the Clifton Iron & Steel Company's plant today.

The police found the name of Martin Fox on the man's laundry. He was about 30 years old. While it was at first thought to have been a case of suicide, the police declare that the man was murdered and his body hidden in the car. A 32-calibre revolver was found near the body, but the coroner after an examination said either shot was sufficient to kill and the man could not have fired the second shot.

Workmen discovered the man lying on the floor of the car, apparently either drunk or sleeping. It was discovered, however, that the man was dead and the police were notified.

### ALL HOTELS WILL CLOSE.

## EXPECT TO CAPTURE ALLEN OUTLAWS IN NEXT TWO DAYS

**Authorities Scout Report That Two Slipped Through Net and Escaped.**

United Press Telegram.

HILLSVILLE, Va., March 28.—Scouting the report that two of the Allen outlaws had been seen near Luray, Va., 25 miles north of here, detectives are today continuing to close in on the Blue Ridge fastness, where they feel certain that the Allens are now cornered.

The story from Luray was that a farmer had been accosted by two men, one absurdly disguised in women's clothes and a sunbonnet that ily concealed a ragged growth of beard. They asked for oil for a lantern and were said to have been heavily armed.

Leaders of the posse today state that it would have been impossible for any of the Allens to slip through their fingers toward Luray, because the strongest force of pursuers is strung across the Blue Ridge on this side. Although absolutely no word was received here today as to the progress of the posses in the mountains, the authorities were confident that the outlaws would be captured within the next few days.

## STEEL CORPORATION TO SPEND BIG SUM

**Negotiates Bond Issue to Assure Extension of Properties.**

### PITTSBURG DISTRICT TO PROFIT

**Greater Part of the $30,000,000 Fund Will Be Expended in Western Pennsylvania, According to Interested Officials—No Definite Plan Told.**

It was announced yesterday that the United States Steel Corporation, in order to assure extensions of properties during the year, had sold an issue of 5 per cent bonds of $30,000,000 to J. P. Morgan & Company. Much of the money thus obtained will, it is expected, be spent in the Pittsburg district. The bond issue was decided upon by the officials of the corporation because of the general extensions of property deemed necessary and the additional fact of it being desirable to have a certain amount of working capital on hand to handle the increasing business of the several subsidiary companies. This is the first time in some years that the corporation has issued bonds, the surplus earnings heretofore having been devoted to the extensions found necessary.

President A. C. Dinkey of the Carnegie Steel Company said last night that there was nothing especially significant in the bond issue, although it naturally carried the assumption that there would be considerable money spent in this district by the Steel Corporation.

"We have no special word at this end as to just what is planned. In fact, it is too early to expect any such word. The bond issue is merely the preparing in a forehanded way for the improvements which for some time have been recognized as necessary, and which will come when all the conditions have been found to demand them. Just what specific improvements will be made in this district, or when they will be made, it is, of course, impossible to state at this time, but it is not unlikely that the Pittsburg district will get a good share of the money that is to be spent for extending the properties of the corporation."

The announcement of the bond issue was made yesterday in New York by Judge E. H. Gary, chairman of the board of directors of the Steel Corporation, following a meeting of the board at which this and several other matters pertaining to development were discussed. The formal statement of Judge Gary is as follows:

"As there must be expended during the year about $20,000,000 for extensions of properties generally, as heretofore authorized, and as about $17,000,000 additional working capital is needed in consequence of increased business of the companies, particularly in the ore department, it has been thought advisable to secure the sum named by the sale of bonds in order to keep the amount of cash on hand up to the sum shown at the beginning of the calendar year."

## ENTIRE FAMILY WIPED OUT WHEN HOME IS DESTROYED

**Not One Escapes When Dwelling Burns in Hamlet Near Wilkesburre.**

WILKESBARRE, March 28.—An andre family consisting of father, mother and three children were roasted alive in their home in Hanover a suburb of this city early this morning. The dead are: Charles Mellek, aged 30; Mrs. Charles Mellek, aged 28; Mylady Mellek, aged 6; Emilia Mellek, aged 4; Stanley Mellek, aged 1.

When the bodies were recovered it was found that the family had been conscious of their terrible fate. Mrs. Mellek was found lying face downward on a bed, with one of the two yonger children tightly shielded under her arms. The eldest child was found in a trunk with her legs protruding from under the lid, where she had crawled in a frantic effort to escape the flames. The father's body was found in the cellar. All the bodies were burned to a crisp.

The flames spread to an adjoining dwelling and consumed it, although the family escaped.

Mr. Cissel will remain a few days in Connellsville to make Contractor Scrimageour familiar with the work. He said this morning that he would probably leave on Saturday for Goshen, Ind., where he has landed a contract for putting up the postoffice in that town. With the job here, Mr. Cissel leaves the employ of the W. H. Fissell Company. From Goshen he will go to Chicago.

Rapid progress is being made on the Federal building. There is plenty of material on hand and operations are being rushed. Work on placing the marble columns in position will be started tomorrow.

## MANY ITALIAN MINERS SAILING FOR HOME

**Anticipating a Suspension of Work They Go on Visit to Native Land.**

NEW YORK, Mar. 28.—Over 1,000 anthracite and bituminous miners have sailed from New York to Italy and other European countries within the last week. They quit the coal fields in anticipation of a suspension of mining, and that, after an agreement is reached, it will be fully a month before all the collieries start up.

Coal operators say hundreds of miners apply daily for leaves of absence or go on the "sick list." Most of them are frugal Italians, who have saved money and are able to take vacations.

"The men give all sorts of excuses to get off," said an operator yesterday. "They know that in event of a strike they will be called upon to give financial aid to the union, and the prospect does not please them. Furthermore, they prefer to be idle in Italy, where it costs less to live.

## CONNELLSVILLE MEN HAVE NARROW ESCAPE

**Wreck on B. & O. at Leith Causes Damage—Trains Transferred to the Pennsylvania.**

Several Connellsville railroad men narrowly escaped serious injury yesterday afternoon when a coke train had a rear end collision with a switching engine at Leith. Both engines were destroyed and a number of freight cars badly damaged. Fireman H. W. Burge was probably the worst used up of the railroad men. All saved themselves by jumping.

A wreck train was dispatched from here to the scene, as was one from Greenwood. Trains were transferred to the Pennsylvania tracks at Fairchance. Train No. 1 was an hour late this morning. The wreckage was cleared at 11 o'clock this morning. The cause of the wreck is given that the engineer on the last freight train could not see the switching engine because of the smoke.

## TREFZ SPEAKS TO AUDIENCE HERE

**Outlines Higher Duties of Good Citizenship at Library.**

### HOLDS INTEREST OF AUDIENCE

**Address is Abbreviated in Order That Speaker Might Catch Car for Greensburg and Return to Chicago. Pleads for Commerce Chamber.**

Edward F. Trefz of Chicago, the "commercial evangelist," addressed a fair-sized audience in the Carnegie Free Library hall last evening on the "Higher Duties of Good Citizenship." The weather was inclement and probably kept many away while religious services also interfered to some extent. The power of oratory possessed by Mr. Trefz was not exaggerated by those who were instrumental in bringing him here. His address was given in connection with the membership campaign of the Chamber of Commerce, but it was applicable to the townspeople in general.

Rev. J. L. Proudfit made the introductory address. He was followed immediately by Mr. Trefz, who spoke until 9.30. The address was curtailed in order that the speaker might catch the 9.30 car, being held at the waiting room for him, and make connections for Chicago at Greensburg. He said in part:

"This address," began Mr. Trefz, "is not confined to the men of Connellsville, but is addressed to its women as well. These women play a much larger part in city building than is supposed by the average observer. Anything contributed to Connellsville is in the interest of all, therefore the work of city building is woman's work as much as that of the men. A more beautiful Connellsville means a stronger Connellsville, and when I say that men make a city I mean men and women.

"Some men such as Phil Armour and Marshall Field whose vision and civic patriotism was greater than their selfish interests conceived the idea of building a great city on the lake shore. The results of their sacrifice is shown in Chicago as it now stands—a city such as it required Paris 1,800 years to build, London 2,700 years and New York so long that it was hoary with age when the city of Chicago was conceived. All these stupendous accomplishments came about through the unselfish sacrifice of the business men of private interests for public welfare.

"You can have no civilization without the business man. As necessary as factories are in the growth of the city, don't confine your efforts and energy to this one phase of city building. Develop the educational side as well, make your city more habitable for your employers and employes. Guard well your public schools, because there your future citizens are trained.

"I guess by now you ladies will ask what part the women play in this city building." They play the greater part. They get everything they want any way, even the ballot if they so desire (laughter.) The merchants are less appreciated by the ladies of a city than any other business men there. Ladies, how can you make a Greater Connellsville when you purchase silks in Pittsburg and calicoes in Connellsville?

"Your local merchants are your friends, they are with you at all times they are the ones from whom purchases should be made. Actual statistics prove that 87 per cent of the sales made in this country are to women. Thus you can see the tremendous influence the large part you can play in the building of Connellsville.

"The future of Connellsville is hinged on this campaign. If successful it means the city will go forward as it has never gone before. If it fails every future project coming up will be referred to in a discouraging way, and the attempts to give Connellsville an adequate Chamber of Commerce will be referred to as a failure.

"Give up your husbands for a few days to help build Connellsville. No greater work can be done than the helping to place Connellsville on the map. Insist that he join the Chamber of Commerce and use every influence to get his friends to do so.

"Now for the man who when asked to join the Chamber of Commerce, whines, 'What do I get out of it?' For such an individual the best thing is the next train out of the city. Suppose the greatest man whom all the world has ever known would have asked the question, 'What do I get out of it?'

"Gentlemen the question is not what do I get out of it, but the paramount question is, considering the future of Connellsville, 'what can I put into it?'"

## AMERICAN FEDERATION MAY BACK MINERS IN STRIKE

**But President Gompers Says It Is Working to Prevent Hostilities.**

United Press Telegram.

WASHINGTON, March 27.—President Gompers of the American Federation of Labor today gave the first intimation that the Federation would support the members of the United Mine Workers of America if a coal strike is called next week.

Gompers also stated that the Federation is aiding in negotiations for an amicable settlement of other labor questions. In a statement issued today Gompers said:

"The Federation is doing all in its power to avert a strike of the coal miners, and I am hopeful that an amicable settlement can be reached; but if trouble can not be avoided, I feel quite sure that the miners will have the support of organized labor.

"I hope and believe the operators will continue negotiations and that the miners will go the limit in securing an amicable settlement.

"I will not say just what the Federation is doing toward a peaceful settlement, as I do not want to get into the limelight in this threatened trouble; but we will stand by any workmen who are honestly and earnestly striving for better wages and working conditions."

### DENNIS IS WILLING.

**Lanky Fighter Does Not Mind Prospect of Meeting Warnick.**

Dennis Johnson dropped in the office this morning looking for the sporting editor. Dennis has heard rumblings from Uniontown. It seems an ambitious fighter named John W. Warnick claims the Fayette county title, which Dennis has carried so long it is getting monotonous.

"I'm having as much trouble getting a fight," lamented Dennis this morning, "as Jack Johnson had to get Tommy Burns in the ring. I'll make any reasonable concession to meet this Warnick just to see whether I have forgotten anything."

The big fellow looks fit. He wants to hear from Warnick's manager.

You pay them monthly the same as rent and at the end of 10 years you own the home and pay no rent. For information see Henry Goldsmith, First National Bank building, P. Bufano, Manager Foreign Department Yough National Bank, or Alex B. Hood, Second National Bank.

Eye Strain as a Factor in the General Health

Good, keen vision and keen vision without those nerve racking headaches or a loss of nervous energy through nerve strain caused from weak, defective eyes are two different things. We prescribe lenses that are worn with absolute comfort. Nervous diseases due to eye strain treated without drugs. Cross-eyes straightened without operation. An overtaxed eye is bound to give trouble if the errors are not properly corrected. An abnormal supply of nervous energy going to the eyes will in time place the patient in a weakened condition. Being unable to supply the excess demand the system quickly starts down hill, resulting in a nervous breakdown.

Prescriptions for lenses promptly filled.

# BULLETIN

# Final Advertisement of the Aaron Store's Remarkable

# ANNIVERSARY SALE

## REDUCED PRICES ARE NOT EFFECTIVE AFTER THIS WEEK

It has been the most remarkable sale we have heard of. People from all parts of Western Pennsylvania have bought heavily since the very first day of the sale. Words cannot describe the feeling of satisfaction it has given us to show how implicitly our published announcements are believed by everybody. And the very knowledge of this confidence has made us doubly careful to say nothing which we could not "make good."

So far as we are concerned we believe this advertisement is not necessary. We believe the store would have been crowded during the remaining days of the sale without further publicity. But we print it as a final reminder to everybody who has been intending to profit by our sale who might possibly put off too long. We are grateful through and through for the way you have treated us and we won't forget it.

The campaign for enlarging the membership of the Connellsville Chamber of Commerce is on in earnest. It is in the hands of active and earnest business men. It deserves to succeed and we believe it will succeed.

Every citizen who believes in Connellsville should enroll himself as a member of the body which has for its primary object the promotion of the growth and prosperity of the city and all its people. The financial obligation of that membership is insignificant compared with the possible results of concerted action, and the other obligations of membership are not a serious burden. Every member should "root" for Connellsville. He should let no opportunity pass to exploit the advantages of this city industrially, financially, educationally and in all things that make up an attractive community.

This is a small portion of the work of the Chamber of Commerce. The burden is undertaken by its officers and directors, who with the single exception of the Secretary, serve without compensation. For the most part, they are busy business men whose time is money. If they are willing to undertake this work, the citizens should be willing to lend them at least the moral and material support contained in a membership in the organization.

Are you on the list of those who believe in Connellsville and its future? If not, don't you think your name ought to be there, not only in justice to the city, but also in justice to yourself?

### The Crowley Case.

The damage suit of former Councilman Crowley against the Borough of Connellsville for injuries received by falling over certain sidewalk obstructions was compromised by allowing the plaintiff a verdict of $300.

We question the propriety of this action on the part of the borough's counsel, or whoever is responsible for it. The Crowley case involved a principle and should have been brought to its lawful conclusion, that the verdict might stand as a landmark for the future.

The plaintiff was a member of the Town Council at the time of the accident. The sidewalk containing the obstructions over which he stumbled with results both painful and disastrous is located in the ward in which he lived and represented. The condition of the sidewalk must have come under his daily observation. It was his duty as a member of the Town Council to have reported it for action, since it was a menace to the safety of every citizen passing that way and consequently the possible source of a suit for damages against the borough.

Did Councilman Crowley neglect an official duty in failing to report the dangerous condition of this sidewalk; and, if so, can he now take advantage of his own wrong?

These are the legal questions involved and it would have been better to have threshed them out than to have covered them up in compromise.

### No Need of Compromise Candidate.

There has been from time to time suggestions of a compromise candidate for the Republican nomination for President on the ground that the campaign has become so bitter that neither candidate can poll the full party strength. It is apparent, however, that President Taft will be renominated by a majority so overwhelming as to leave no doubt of the party choice; in fact, his majority promises to be one that not even a dark horse could hope to have this side of a stampede.

Senator Penrose cannot see the necessity or the utility of a dark horse. "If we cannot win with Taft, we cannot win with anybody," he says, and he explains further as follows:

I am not in favor of considering the question of a compromise candidate for the Presidency, and so far as Pennsylvania is concerned there is no movement looking to that end. Personally I am in favor of the renomination of President Taft, because I believe him to be the logical choice of the Republicans. His is growing stronger each day, and I believe he will be nominated by an overwhelming vote of the National Convention and will be elected. I do not think the Roosevelt men will bolt the Chicago Convention. They have nothing upon which to base a bolt. Roosevelt's candidacy rests solely upon the assumption that there is an overwhelming demand for him as a candidate among the Republicans of the country. President Taft's vote in the convention will be so large as to definitely refute this allegation and to demonstrate beyond all question that Taft is the Republican choice for President. In the face of this proved fact it would be foolish for the Roosevelt men to bolt. They could hope to gain nothing by it unless to defeat Taft.

News from various sections of Pennsylvania convinces me that our primaries on April 19 will return the same verdict as rendered by New York yesterday, and that Taft will sweep the State. I repeat that in my opinion the Republican prospects will be brightest with Taft as the Nominee. If we cannot win with Taft we cannot win at all.

Pennsylvania Republicans not afflicted with political grievances or suffering with gnawing political ambitions will agree with Senator Penrose in this matter, and there is reason to think that the result of the primary will prove that the agreement is so general as to be almost unanimous.

Rock Island's Commission Government was temporarily knocked out by the attacks of a weekly labor paper. This seems to have been a war of a weekly paper against a weekly government.

Connellsville real estate is almost as active as the Chamber of Commerce.

A Connellsville man is reported to have died in Dumont as the result of rough usage on the part of an attendant. It is time such employes of such institutions were being taught a lesson. There is entirely too little patience and altogether too much downright brutality on the part of these petty officials clothed with a little brief authority over half-witted humanity.

The Somerset & Cambria branch is due to have a boom.

It begins to look as if the strenuous efforts of the English Government toward the settlement of the coal strike would at last be successful.

It tok an Act of Parliament to settle the English coal strike. What will it take to settle the American coal strikes?

### Leaves the Hospital.

Phillip Wilkey of Dunbar township, who has been a patient at the South Side Private hospital for the past several weeks, left yesterday. His condition is greatly improved.

# FOURTEEN COKERS SIGN CONTRACTS

## Candidates Send in Their Agreements; Six Yet to be Heard From.

## WILSON GOES TO PITTSBURG

### Will Endeavor to Have Connellsville Schedule Rearranged—Wants Three Dates Changed—Pitcher Louis Wood's Contract is Received.

COKER ROSTER TO DATE.

Pitchers.

William Ritter, McCroreysville, Pa., secured form Elmira, N. Y. S. league.

Louis Woods, Athens, O., attends Ohio Wesleyan University.

Jerry Collins, Rochester, N. Y., Oshkosh last year.

William Fazenbaker, Dodson, Md.

Catchers.

Larry Whorrell, Dodson, Md.

James Kearns, Charlerol.

Infielders.

Arthur A. Durivage, Jonesville, Mich., second base or outfield.

Danny Hart, Pittsburg, second base.

Thomas Curry, Pittsburg, first base.

Andrew Gotzie, Leisenring, third base.

Daniel Phelan, Hamilton, O., first base.

Outfielders.

Benjamin Geyer, Pittsburg.

Larue Lawbaugh, Wapakoneta, O.

Joseph Prudy, Akron.

From the list of signed contracts returned to Manager W. C. Wilson, it is found that 14 men are now on the Coker roster. This list is classified with four pitchers, two catchers, five infielders and three outfielders.

Six contracts are still out and word of them is expected daily. Louis Woods, the big college pitcher from Athens, O., sent in his signed contract yesterday afternoon. He hails from the Ohio Wesleyan University. Word has been received from First Baseman Press of Jersey City that he will send his contract in a few days. He states that he will do his spring training with the Jersey City team of the International league.

Manager Wilson left this morning for Pittsburg. He will return Saturday. While away he will visit President Travis and endeavor to have three of the Cokers' dates changed. According to the tentative schedule, the President has Connellsville open here with McKeesport on May 15. That day is on a Wednesday. From here the Cokers are scheduled to jump to McKeesport where they will play on May 16 and two games on the 17th. Wilson wants May 16th and 16th games here. With the tentative schedule in event of rain on the opening day Connellsville would be compelled to postpone its opening almost a week. The other dates wanted changed are the Decoration Day dates. Wilson wants to exchange his dates on the Fourth of July for Decoration Day.

Contractor J. N. Sisley received yesterday afternoon a consignment of rails for the fence. The posts will be received today.

Manager Wilson yesterday let the contract for uniforms. J. H. Doyle was given the order for Spalding goods. The price will be $210. Fourteen suits were ordered. They will be grey with white stockings. The stockings will have two thin blue stripes around the middle. Double breasted coats have also been ordered.

The signed contract of Pitcher Ritter, turned over to Connellsville by "Red" Calhoun of Elmira, was received by special delivery last night.

Notes.

Uniontown will have a strong amateur team this season. So will Scottdale.

Manager Wilson yesterday received a proposition that takes the cake so far as egotism is concerned. Writing from the seclusion of Lake Forest, Ill., E. G. Krueger, a pitcher, offers his services to the Connellsville club. "If I am drafted or sold," he says, "I want half the money."

*It looks as though Trenton* will face the Johnstown Central league champions for the championship of the world. At a game at Trenton Tuesday night, Harry Hough's team outclassed Jasper, winning 45 to 20. Between them, Hough and Getzinger had 26 of Trenton's points. Eighteen hundred people witnessed the game.

## HARMON RAILWAY COUNSEL.

### Verdict of $300,000 Returned Against His Client, the C. & O.

CINCINNATI, March 28.—Mrs. D. McKell was given a $300,000 verdict before Judge Hollister, in United States district court yesterday in her suit as administratrix of the estate of Thomas G. McKell of Chillicothe, against the Chesapeake & Ohio railroad. One of the two attorneys for the defense was Judson Harmon, Democratic presidential candidate.

The suit was based on an allegation of breach of contract, involving coal land in West Virginia. The suit was first filed in 1902.

When Governor Harmon, who has spent 21 days in Cincinnati in the trial of the case, was asked why he, a presidential candidate, saw fit to engage so actively in corporation litigation, he said that it was because of a promise he had made to the railroad several years ago to act for it until the case was finished.

## HALF A MILLION DOLLARS AVAILABLE FOR GOOD ROADS

### Highway Department of State Benefits Through Conference of Officials at Harrisburg.

HARRISBURG, March 28.—Half a million dollars is added to the fund available for road building in Pennsylvania as a result of a conference held yesterday between Auditor General A. E. Sisson, Attorney General John C. Bell and his assistants, Deputy State Highway Commissioner Joseph W. Hunter and Chief Engineer Samuel D. Foster of the State Highway Department.

The money has been collected by State Treasure Charles F. Wright from various counties from amounts due for State road work under the act of 1905, which provided that three-fourths of the cost of State roads should be paid by the Commonwealth and the remaining one-fourth by the counties and townships. The practice was for the State Highway Department to pay the contractors in full and collect one-fourth from the counties later. Some counties were tardy in paying up, but Treasurer Wright has been going after all the money due.

The decision at yesterday's conference is that this money becomes immediately available for the Highway Department without having to be reappropriated by the Legislature.

CHAPTER IV.

Jenkins Declares for the Water Wagon.

"But this savage-looking Chinaman that you saw, Jenkins—how was he dressed?" I adopted a careless tone of inquiry.

It was high noon, and I was toying with an after luncheon, or rather after breakfast, cigar.

Jenkins' head shook dubiously. "I just remember something blackish. My, sir, I didn't have time to notice nothing like clothes!"

His tone conveyed aggrieved protest. He went on:

"Just as I'm telling you, sir, I saw some one sitting there by the window and walked toward him, thinking it was you. Then, all of a sudden, I see his awful face a-scowling at me there in the moonlight."

"And he was smoking, you say?"

Jenkins sniffed indignantly. "Free and easy as a lord, sir! He held a long stick to his ugly mouth, and smoke was curling out of a little bowl near the end."

"Oh, opium pipe, eh?"

"Likely, sir," agreed Jenkins; "but I never saw one."

By Jove, I had my own opinion about that! I knew he must have seen one before; but I just went on questioning, to gain time, you know, and wondering all the while how I should ever be able to break the truth to the poor fellow.

"Tell me again what he was like," I said. "How did you know he was a Chinaman?"

"Why, by his long black pigtail, sir, and his onery color. But I never saw no Chinaman as ugly as this one—no sir. Oh, he was just too awful horrid to look at, sir. His forehead sloped away back, or maybe the front part of his head being all shaved made it look that way. And the skin about his eyes was painted white with red streaks shooting around like rays of light."

"No beard or mustache, I suppose?" I suggested, feeling my own smooth-shaven face. Jenkins' reply was a surprise:

"Yes, sir; there were long black kind of rat tails that dropped down from the sides of his mouth. And then his neck—ugh—all thick with woolly hair."

"Oh, it was, eh?" I said drily, thinking of the long red stripe that my collar concealed. "I suppose you felt this, eh, when you jumped at his throat?"

Jenkins rubbed his chin with a puzzled air.

"Why, that's uncommon queer, sir; but now that you remind me, I do remember that his neck felt perfectly smooth—and it wasn't so big, either. Why, I should say it felt just about like yours would, sir."

I eyed him ruefully.

"By Jove, I don't doubt it a minute!" I commented with some disgust.

"Well, go on with your yarn. You were telling, when I interrupted, about rushing into my bedroom."

"Yes, sir," he resumed with animation. "And when I didn't find you, I was just frantic, for I didn't know you had gone out, sir—never thought of that; I went for the ugly monster with the big pistol there in the cabinet—which, by the way, sir, the low down villain stole when he locked me up and lit out."

I had an inspiration.

"I see," I broke in carelessly; "and then you demanded to know where I was—that it? Then you backed him to that window, and he told you he had chucked me into the street—whereupon you tried to blow off his head and knocked the jolly daylights out of the lady with the fencing foil."

Jenkins, his mouth agape, viewed me with distended eyes.

"I didn't tell you that, sir," he faltered. "How—"

"And when you dropped the weapon," I went on, "this chap collared it, jabbed the beastly thing into you, and told you to look at him. And by Jove you wouldn't!"

Jenkins groaned slightly. The apologetic cough with which he strove to mantle the sound was dry and spiritless.

"No, sir; it seemed easier to die, sir," he muttered—"what with him grinning like a fiend and his long

Grinning Like a Fiend.

teeth a-sticking out over his lip—ugh!" Then he added wonderingly: "But what gets me is how you should know, sir."

I looked at him gravely.

"Jenkins," I said gently, "I know, because it so happens I was here all the time."

His eyes bulged incredulously.

"You, sir? You mean in this room?"

I nodded slowly. "I mean right in this room—I was a witness of the whole thing."

Jenkins just gulped. I motioned to a chair.

"You may sit down, Jenkins, my poor fellow," I said compassionately. I poured out some whisky and gave it to him.

"You must brace yourself for a great shock, my poor Jenkins," I said soothingly. And then I thought I had best hurry on, for I could tell by the way his eyes rolled and the blue color of his lips that probably I was just in time to head off another attack. And then I told him all.

"And here," I concluded, "are the marks of your fingers under my collar, and the pistol is on top of the bookcase."

Jenkins just sat there, kind of huddled up, you know, and his face as white as the what-you-call-it snow. Didn't seem able to say a word. By Jove, it was too much for me; my heart just went out to him.

"It's all right, Jenkins," I said kindly, and I patted his knee. "Doesn't make a jolly bit of difference to *me*, personally. Just told you because I thought you ought to know. You just go right along and continue your duties, so far as I am concerned."

Jenkins' hand slipped along his knee and ventured to touch mine timidly. He rose heavily.

"Mr. Lightnut, sir," he said huskily, "if you're not going to need me very much, could I be excused for a while tonight?"

"By Jove, yes, Jenkins! Go out and enjoy the evening; it will do you good. Stay as long as you like, dash it! You know I dine tonight at the club. Go to a roof garden and get some fresh air."

A toss of the head broke Jenkins' calm; his fist struck his palm.

"It ain't that, sir," he exclaimed. "I don't want no fresh air, but I do want fresh resolution and a fresh start. *I'm going to find him.*"

"Him!" I was startled. Dash me, I half thought he meant the Chinaman.

"Him, sir; that temperance lecturer, I mean. I'm going to get out a paper against that old enemy there!" And he shook his fist at the whisky decanter.

To Be Continued.

## Read About These Three Girls. How Sick They Were and How Their Health Was Restored by Lydia E. Pinkham's Vegetable Compound.

Appleton, Wis.—"I take pleasure in writing you an account of my sickness. I told a friend of mine how I felt and she said I had female trouble and advised me to use Lydia E. Pinkham's Vegetable Compound, as she had taken it herself for the same trouble with wonderful results. I had been sickly for two years and overworked myself, and had such bad feelings every month that I could hardly walk for pain. I was very nervous and easily tired out and could not sleep nights. I had dizzy spells, and pimples came on my face. But I have taken your Lydia E. Pinkham's Vegetable Compound and it has restored my health. I think it is the best medicine in existence."—Miss CECILIA M. BAUER, 1161 Lawrence St., Appleton, Wis.

A SCHOOL TEACHER'S GRATITUDE:

Geneva, Iowa.—"I have been teaching school for some years and I have neglected my health because I was too busy with my work to attend to myself properly. I suffered greatly every month and was on the verge of a nervous breakdown.

"I wrote to you about my condition and took Lydia E. Pinkham's Vegetable Compound and the Blood Purifier as you recommended. These remedies have done wonders for me and I can highly and widely recommend them to every suffering woman."—Miss MINNIE SHAVER, R. F. D. No. 1, Geneva, Iowa, c/o Sam Erickson.

A COLORADO GIRL'S CASE:

Montrose, Col.—"I was troubled very much with irregular periods. Sometimes two months would elapse. I suffered severe headache, was weak and nervous, could eat scarcely anything.

"I took both Lydia E. Pinkham's Vegetable Compound and Blood Purifier and the result was wonderful. I feel like another person.

"I think your remedies are the best on earth and cannot express my thankfulness to you for what they have done to me. I help my neighbors when they are sick, and I shall always recommend your medicines."—Miss ELLA MCCANDLESS, Montrose, Col.

Is it not reasonable to suppose that a medicine that did so much for these girls will benefit any other girl who is suffering with the same troubles?

Does it not seem the only sensible thing to give such a medicine at least a trial? You may be sure that it can do you no harm, and there are lots of proof that it will do you much good.

**For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself who will not try this famous medicine, made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.**

## Rockwood.

ROCKWOOD, March 27.—The well known Meyersdale banker, Samuel D. Livengood, whose bank failed several years ago, has made application for admission to the Somerset County Almshouse. The aged banker is approaching his 90th birthday and will likely be admitted to the home to spend the remainder of his days. Mr. Livengood has many friends and relatives who would have been glad to provide for him in his old age had it not been that they lost their savings in the defunct institution, which has so far only paid the depositors 17 cents on the dollar, yet there is still some property to be disposed of which may bring the percentage up to 25.

R. G. Pyle, who was taken to the Cottage hospital at Connellsville on Monday for treatment for appendicitis returned home last evening on train No. 15 much improved.

Judge W. H. Rappel of Somerset, was a business visitor at Rockwood yesterday.

Miss Lucy Bobleiz of Baltimore, arrived in town the first of the week and will assist Emma Evans during the spring season at her milliner store.

The New Coal Company is making rapid progress at its new mines along the Western Maryland and will be ready for to coal engines and ship coal before the Western Maryland tipple is completed. The new tipple will be 80 feet high at the highest point.

## Dunbar.

DUNBAR, March 28.—By the rapid rate in which the Grim Reaper of Death is mowing down our old soldiers there will be very few of them left by Decoration Day to do honor to their departed comrades, for within the last two weeks death has claimed its one when on Tuesday afternoon John McClain was struck by the north bound Pennsylvania passenger train due here at 2.34 and carried under the train.

Mr. McClain had been in Dunbar and had started to walk to his home at Hill Farm. He resided in the old stone house at Franklin Cemetery where he has been sexton for the past 15 years. He had been to Dunbar and was walking along the P. R. R. tracks. When opposite the old ice plant the train came upon him. It is thought by many that Mr. McClain became confused as several people at a distance saw him stop on the Pennsylvania tracks and watch a Baltimore & Ohio freight train go south and it is supposed he did not hear the P. R. R. train.

The remains were removed to the undertaking establishment of J. M. Burhans and Coroner H. J. Bell of Dawson was notified.

Mr. McClain was in his 66th year and had practically resided all his life in Dunbar and besides his wife he is survived by a family of 11 grown children as follows: William McClain, Dunbar; Mrs. William E. Kelly, Vandergrift; Mrs. Walter Martin, Dunbar; Charles McClain, Uniontown; Harry McClain, Greensburg; James McClain, Phillips Works; Mrs. Belle Lincoln, Dunbar; Jesse McClain, Mt. Braddock, and Virginia, Frank and Phillip, at home. The funeral will be held on Friday afternoon at 2 o'clock from the home of his daughter, Mrs. Walter Martin on Bryson Hill. Services will be conducted by Rev. D. E. Minerd and Rev. T. M. Gladden of the Methodist Protestant church. The funeral will be in charge of the Duncan Post of the G. A. R. of which he was a member.

## AT THE THEATRE.

### THE SOISSON.

"THE NEWLYWEDS AND BABY."

"Oh, for goodness sake!" Such a hilarious crowd of people never left a place of amusement as the one that will come out of the Soisson theatre Wednesday, April 3, after the performance of "The Newlyweds and Their Baby." The expression quoted above is one that made Daniel F. Murphy famous, and which puts the audience in the very best humor right from the start. Earl Knapp, who not

only plays the part of Napoleon to perfection, but whose expert handling of the part of Major Knott Much causes the audience to rock in laughtertime and again is undoubtedly the star attraction of the play.

The performers are greeted with glee throughout the play, while all the musical numbers are encored. The stage setting of the first act is that of a nursery, while the setting of the second act is more gorgeous with its colored lights, fancy arches, and lofty electric lit towers in the distance. Daniel F. Murphy as the waiter, Adolph Nichol, makes a tremendous hit and his phrase, "Oh for goodness sake," becomes excruciatingly funny. The "Schintzelbaum Blackboard song" brings down the house, and his attempts at playing the nurse are ludicrous. Charles A. Morgan makes an ideal Mr. Newlywed, just as the cartoon pictures him, and is an able aid to the Countess Olga Von Hatzfeldt, who captivates the ladies as Mrs. Newlywed.

Two of the musical numbers strike the fancy of any audience and they will not rest until they call the chorus out several times. "Every Baby is a Sweet Bouquet," and "Can't You See I Love You?" are the favorites.

# THE COKE TRADE IS MARKING TIME

### Both Buyers and Sellers Have Adopted the Waiting Policy.

### MUCH DEPENDS ON COAL STRIKE

**If Walkout Comes in Union Fields, Coke Producers Will Ship Coal. Just Now There Are Few Coal Cars for Connellsville Region Operators.**

From The Weekly Courier.

PITTSBURG, Mar. 27.—Buyers and sellers of coke have settled down to a waiting policy, to see the outcome of the prospective suspension of mining in the union coal mining districts. Consumers are getting nearly their full requirements under contracts, there being few cases where shipments are not up to the contractual obligations of the sellers. Consumers who were buying extra coke in the past few weeks have largely dropped out of the market, as they see no great advantage in buying extra coke at the present high prices, and prefer to take their chances of having to pay still higher prices in future, should they find it necessary to buy additional coke. Producers, of course, are making no effort to force sales, as they are well sold up, and the result is that the market is largely nominal on the basis of about $3.20 for prompt furnace coke, a price which has been paid in the past few days for perhaps 50 or 75 cars, the total turnover being lighter than in several weeks.

An element in the situation is the fact that consumers are not certain they will need their full normal requirements of coke, in the event of a suspension of mining, because the lack of coal may reduce consumption of iron and steel.

While special prices may occasionally be paid for coke, the market stands approximately as follows,

Prompt furnace .....$2.50@$2.25
Prompt foundry .....$2.85@$3.00

Very little Connellsville coal is being shipped at this time. There is a demand for all coal, at attractive prices but the regular mines are absorbing the entire car supply available, and even then are not able to run full so that it is very difficult for Connellsville operations to secure cars in which to ship coal. No doubt shipments would amount to a considerable tonnage if cars were available, as prices bid for coal would easily afford a good profit to the Connellsville region, even at the slight freight disadvantage of the region as compared with the Pittsburg district.

Conditions as to the shipment of Connellsville coal will change altogether after April 1st, as the union mines will then be down and a large number of cars will be released. The full normal supply will not be available, as the railroads have stored considerable coal on track, but the supply of coal cars will be much better than it is now and the Connellsville region will be able to ship considerable coal. How this will affect the coke supply remains to be seen. At comparable prices for coal and coke the coal may be shipped instead of coke, on account of scarcity of labor at the coke ovens, while in the event of any lengthy suspension of mining prices of coal will probably go to a level making coal a better product to ship than coke. Any scarcity of fuel sufficient to send coal prices still higher would be accompanied by such a slowing down in industrial operations as would be likely somewhat to limit the demand for coke, and thus there would be more of a change in the character of material shipped than in the total tonnage, more coal being shipped and less coke.

The steel business has been giving an excellent account of itself, the flow of orders being better than at any time since 1910. Prices show a slight stiffening tendency, though realized prices are not going to be much higher on account of buyers having covered themselves so well with contracts

Pig iron has been quiet the past week, but has lost none of its strength, the undertone of the market being very firm. For early delivery, Bessemer is quotable at $14.26, Valley, basic at $13 and foundry at $13.25, freight to Pittsburg being 90 cents.

Steps are being taken for the formation of a federation of all employes of electrical workers for corporations in the territory of California, Nevada, Oregon, Washington, Arizona and British Columbia.
